

Notes for Website Development:

General Notes:

Please refer to the icons that Comms provided and make sure that they are being used consistently.

[Icons](#) Link

Main Page:

- Let's remove the hovering اكتشف as it doesn't click to anywhere.
- Have numbers in the white rectangle move slower so it can be noticed
- Add 4.5K شريك
- Instead of محافظة داخل المملكة let's have تغطية كافة المحافظات
- Let's make sure all tabs of programs are clickable and lead to the info page of the programs
- Let's have مساحة الصناع ملتقى الصناع not separated
- For AI questions, Ahmad Marei will provide the questions and logic
- For the available all year long, let's have them all linked to their actual websites if available (Nahno, HTUx...if not available to the info page, so the core to HTU info page but to go down to the section not just open the page)
- For the activities at the end of the page, we will provide you with the whole activities for August so we can add and include

Opportunities Hub or بوابة الفرص

- For phase one it will be only the programs and the activities and the makers map in the موارد و شبكات
- Let's remove this from under the main title استكشف المبادرات الاستراتيجية لمؤسسة ولي العهد، أو ابحث في And let's make sure the title is consistent as بوابة الفرص
- For the programs let's have this line more visible برامج ومبادرات مختارة تتطلب التزاماً طويلاً الأمد without من الصفر
- We will confirm and send the content for each program ASAP so you can add
- Let's have at least 3 to 4 chosen photos to be in the program info page (for each program, from the folder that comms shared) as youth recommended we have more photos about the programs to get more insights and relate better
- In the activities, let's have this more visible فرص وفعاليات قصيرة لتطوير مهاراتك بسرعة
- We will be providing the calendar/ activities of August so we can add ASAP.
- Let's remove the learn lead...from the activities cards.
- We won't have the points/ rewards at this stage at the cards
- In the موارد و شبكات we will hide the youth and the organizations, and we will only have the makers map

Success Stories

No notes for now, we will send the other batches as soon as we receive them.

News:

- We will share the whole data base so it can be added. ASAP
- For now we can use the most recent content on the website. We can choose top 3 news and have them in the main top carousel.
- The Crowd driven section can be added as just a title and the option to share as we still don't have any shared things, unless you'd like us to have people actually share somethings so you can add them.

عدسة الميدان

We can have it from the original website. You can choose the best highlights from your point of view.

No partners page till now, will be for phase 2

About CPF

- The quote already from the website you can also add other quotes available on shared drive. [HRHCP's Quotes - DK 11.2 - Copy.xlsx](#) make sure to choose one that is broad enough not only about volunteering or tech...
- دور المؤسسة this will have this under it:

الوصول للشباب في كافة محافظات المملكة والاستماع لرغباتهم وطموحاتهم وتقديم الفرص والبرامج والموارد التي تمكنهم من الوصول لطموحاتهم وأهدافهم. نؤمن في مؤسسة ولي العهد ان كل شاب وشابة في كافة محافظات الوطن لهم الحق في الوصول لأفضل الخدمات والفرص التي تساهم في تمكينهم لخدمة الوطن وتطوره.

- The numbers to also move a bit slower (there is a recommendation to have it in boxes with icons for each number, similar to what was on the original website but with what you see better)
- Add Add 4.5K شريك and add 120 موظف

There will be a map that will be added in this section before the timeline that we will be waiting for Ahmad Marei to provide

رحلة المؤسسة

Time line is available in this sheet. [CPF TIMELINE.xlsx](#)

No publication page at this phase.
